Extraction of city budget report data

Keywords: Data extraction, data processing

Project description

- City budget reports are a central reporting tool in the United States
- The goal of the IDP project is to create a comprehensive dataset based on these reports
- The main tasks of the IDP are:
  1) Systematically extract budget reports for U.S. cities from multiple web sources
  2) Link the reports to a given dataset
  3) Extract relevant data from the reports

What we are looking for

- Strong analytical and project management skills
- Determination and passion for your areas of expertise
- IT skills required for the IDP
- Interest to learn something about finance
- Ideally, team of 2 persons

What we offer

- Kick-off session including introduction to relevant finance topics
- Experience with IDPs
- Open dialogue and support
- Access to prime capital markets databases (Bloomberg, Datastream, Thomson Reuters, etc)
- Both single and group projects are possible

Interested?
