Creation of a structured dataset on citizens’ initiatives in Germany

Keywords: Data extraction, data mapping

Project description
At the local government level, citizens’ initiatives represent a tool of direct democracy for citizens of the respective communities. The goal of the IDP project is to create a comprehensive dataset on citizens’ initiatives and their outcomes for German cities. The main tasks of the IDP are:

1) Extract data on citizens’ initiatives
2) Link data to standard regional classifications
3) Link the location of companies to the citizens’ initiatives data

What we are looking for
- Strong analytical and project management skills
- Determination and passion for your areas of expertise
- IT skills required for the IDP
- Interest to learn something about finance

What we offer
- Knowledge in quantitative finance, corporate finance and corporate governance
- Kick-off session including introduction to relevant finance and/or business topics
- Experience with IDPs
- Open dialogue and support
- If needed: Access to prime capital markets databases (Bloomberg, Datastream, Thomson Reuters, etc)
