Searching Factiva with Dow Jones Intelligent Indexing Terms

1. On the Search Builder or Search Builder form screen, select from one or more of these indexing categories:
   a. Source
   b. Company
   c. Subject
   d. Industry
   e. Region
   f. Language

Or enter a keyword or company name in the Lookup search box.

2. Scroll through the list, then click the term you want applied to your search. Click the + for more subcategories.

3. If selecting multiple terms, click on the connector that appears between the terms.

4. When using the Search Builder form, be sure to add keywords in the Search fields in addition to the indexing terms you choose.

5. When you have finished adding terms to your search, click RUN SEARCH.

**Working with Results**

**Choosing Content Type**
Results can include publications, web news, pictures, and multimedia. To access these different types of results, click on the corresponding tab.

**Factiva.com — Discovery Pane**

**New! Discovery Pane helps you narrow your search**
After you run a search, the Discovery Pane will be available to the left of your results, populated with filters, that you can use to focus your search results even further. To remove a filter, click on the filter name, which will appear above the results.

Any of the filters below can be combined for added depth and insight into your results:

- **Date** – Mouse over a section of the bar chart and a pop-up will appear with the start date and end date, and the number of articles from that week or month.

- **News Clusters** – Identify top trends, relationships, and patterns within your search results.

- **Companies** – Displays the ten most common companies found in the Dow Jones Intelligent Indexing™ Company category associated with your results.

- **Sources** – Click on the name of a publication to view articles from that specific source.

- **Subjects** – Shows the number of articles within your results associated with Dow Jones Intelligent Indexing subjects.

- **Industries** – Click on an industry name to narrow your results by a specific industry.

- **Keywords** – Extract the most frequently used terms and phrases related to your search using text-mining technologies that examine the first 100 articles within your results.

- **Executives** – Lists the most-mentioned corporate executives from your search results.

**Processing Results — Icons**

- **SELECT ALL** places checkmarks next to all articles on the screen. You can also check individual articles.

- **VIEW SELECTED** will display the full text of any selected articles.

- **EMAIL RESULTS** lets you email articles in a variety of formats.

- **FORMAT FOR PRINTING** opens a new browser window with selected articles formatted for printing.

- **FORMAT FOR SAVING** opens a new browser window with selected articles in text-only format.

- **VIEW AS RTF** automatically formats selected articles in Rich Text Format and launches your word processor.

- **VIEW AS PDF** automatically formats selected articles in PDF.

- **XML** saves selected articles in XML.
