criteria’s in the search strategy
Quick User-guide for Orbis Company Search

The search above: Companies in the UK that manufactures beer with at revenue of minimum EUR 10 million.

List format
In the list format you will get the companies matching your criteria’s. You can print the list as it is, or you can add more search steps to specify the search, by clicking “Modify current search”. The list contains information on things like: Country, Industry, Turnover, Global ultimate owner name etc. depending on the default setting. (List format can be changed under “Add” in the right side).
If you want to export specific information’s from more than one company, you can define the list format with the information needed (employees, Industry codes, profits, etc.), and then export the data to Excel, Word or PDF.
If you choose “Modify current search” you can combine the previous results with other options.
